

JEEPNI GO

Smart Mobility for All

Minimum Viable Product (MVP) Validation Survey

We, the JeepniGo team, are excited to present our Minimum Viable Product (MVP) for your valuable feedback. JeepniGo is a web and mobile application designed to improve the commuting experience for both passengers and jeepney drivers, particularly focusing on accessibility for Persons with Disabilities (PWDs).

Our goal is to create a user-friendly and efficient platform that addresses the challenges of finding and managing jeepney rides, especially during peak hours. Your insights are crucial in helping us refine JeepniGo and ensure it meets the needs of our target users.

This questionnaire is designed to gather your thoughts and experiences with the JeepniGo MVP. Your feedback will help us understand what aspects of the app are working well and what areas need improvement. We have included both quantitative and qualitative questions to capture a comprehensive view of your experience.

Your participation is voluntary and all responses will be kept confidential. Your honest feedback is highly appreciated and will play a significant role in the development of JeepniGo.

Thank you for your time and willingness to help us make JeepniGo a valuable service for our community.

Sincerely,

The JeepniGo Team
